Industrial Shares Again Come in for Pronounced Losses-Local Markets Fairly Active.

At New York, yesterday, money on call was easy at 11/202 per cent.; last loan at 11/2: closing offered at 11/201% per cent.

Prime mercantile paper, 364 per cent. Sterling exchange was firmer, with actual business in bankers' bills at \$4.86%@4.87 for demand and \$4.84%@4.85 for sixty days posted rates, \$4.85\\2014.86 and \$4.87\\2014.88; commercial bills, \$4.831/2.

Silver certificates, 64% 665c; bar silver, 64%c; Mexican dollars, 50%c. At London bar silver closed at 29 11-16d per ounce. The total sales of stocks were 123,227

shares, including the following: American Tobacco, 7,500; American Sugar, 7,900; Burlington, 4,100; Northern Pacific preferred, 7,800; Reading, 4,400; St. Paul, 7,100; silver certificates, 10,000.

With an abundance of money still to be had at cheap rates and eagerly seeking an outlet for expenditure, the trading on the New York Stock Exchange yesterday continued to be confined to almost insignificant proportions and was further restricted owing to the fact that to-day will be a holiday on the exchange. Aside from the dealings of the professional element, the coun try seems to be waiting for improvement in case yesterday, is sufficient to put a stop almost entirely to speculation. Much more than half the declines were again confined to the industrial shares, which invite manipulation by their sensitiveness to the prevailing anti-trust sentiment as reflected in the acts of legislative bodies. The market was heavy and drooping almost throughout under the combined influence of the reflected uneasiness in London and on the continent over the threatened rupture between Turkey and Greece over Crete. The sympathy with the decline in the wheat market and the lack of a well-defined opinion of

encouraged the bears, but there was the accompanying belief that the railways which have been curtailing their expenses for repairs would profit by the cheapness of rails. The apparent volume of the demand for rails developed by the cheaper prices gave hopes that the stagnation in that industry has come to an end, thus contributing to the general awakening of business to which all are looking forward with expec-The industrials showed a tendency to advance at times, partly on covering by shorts, Sugar at one time rallying to 1121/2, but later yielded again to the persistent hammering of the bears and soid off, Rub-ber declining 14 and Rubber preferred 24, the other industrials reacting in sympathy. A raid on the general list in the closing hour reduced the price of Sugar 11/8 and Leather preferred 1% from the high price of the day. The group showed net declines on the day. The general list also showed a fractional decline, though there were elements of resistance among the railways. These rose early in the day, but fell on heavy London selling. Northern Pacific preferred led with a grop of 11% on liquidaon, induced by the unfavorable gross trafsequently recovered 4. The shares of the Illinois Steel Company fell 14 on the steelrail complication. Tennessee Coal and Iron also lost 1. The other iron and steel company shares were but little dealt in. The anthracite coal shares were pressed for sale on rumors that large investment interests were disposing of their holdings on

at the lowest of the day. The bond market displayed heaviness on decreased transactions, which were largely confined to the low-priced mortgages. Realizations accelerated the depression in the speculative liens, with the Atchisons prominent. The changes generally were unimportant, outside of a few of the highpriced bonds. The Union Pacific issues are being more actively dealt in in consequence of the activity of the various reorganization interests, with Union Pacific sinkingfund sevens and Union Pacific trust receipts rising 2 and 3 per cent., respectively.

account of unsatisfactory prospects of

The sales were \$1,735,000. Government bonds were more active and sagged generally on realizations. The inquiry for these securities emanates principally from banks and individual capitalists who are unable to seek employment for their surplus funds in the stagnant stock speculation. The sales aggregated \$130,000. Silver certificates were dealt in after a long period of neglect at 61% c for 10,000 ounces. The following table, prepared by L. W. BRADSTREET'S REVIEW.

Big Sales of Steel Rails Regarded as a Good Omen.

NEW YORK, Feb. 11.-Bradstreet's on Saturday will say: The more favorable features of the business week include sales of 300,000 tons of steel rails on the collapse of the pool, which promises work for the mills for months to come; the advance in | 21/2c lower, at \$3.80, and May ribs about 21/2c the price of print cloths, following the sale of 750,000 pieces from accumulated stocks and the starting up of a number of im- | 30,000 head. portant metal and other industrial establishments throughout the East and Middle States. The recent reduction in the price of steel billets of \$5 a ton, while rails were reduced only \$3 foreshadowed another cut in rail prices or the breaking up of the pool. The latter finds prices from \$8 to \$9 lower than last week. One effect will be to stimulate exports of rails, demand for domestic Bessemer pig iron and for ore and consumption of iron and steel generally. There is a moderate increase in demand for pig iron at Pittsburg and purchases have been made by St. Louis stove makers. Considerable activity is reported in hemlock leather, for which the price is higher, and American purchases of wool at the late London sale amount to 45,000 bales, the heaviest total at any one such sale since the speculative buying there by Americans prior to the going into effect of the Mc-Kinley tariff. The movement of prices is, on the whole, favorable. Exports of wheat (flour included as wheat) from both coasts of the United States and from St. John, N. B., amount to 2,051,345 bu from Feb. 5 to Feb. 10, inclusive (the week being one day short), as compared with 3,168,000 bu last week, 2,718,-000 bu in the week a year ago, 2,572,000 bu in the week two years ago, 2,005,000 bu thres years ago, and as contrasted with 3,080,000 bu in the corresponding week of 1893. Exports of Indian corn during the same period show a very large gain, amounting to 4,169,-274 bu, as compared with 3,659,000 bu last week, 3,143,000 bu in the week a year ago, 562,000 bu in the week two years ago, 1.520, 600 bu three years ago and as contrasted with 712,000 bu in the corresponding week

WHEAT WAS WEAK AND CHICAGO HOLDERS HELPED IT ALONG.

Seventy-Five Cargoes Said to Be on the Way to Europe and Expected to Break the Market.

CHICAGO, Feb. 11 .- Wheat declined %c to-day. Liquidation by strong local holders and the general softness of the foreign markets imparted a decidedly bearish tone | dull. Sugar firm. Eggs firm at 12c. Cheese firm to the market throughout the session. Corn and oats were easy on a small amount of business, but closed at substantially unchanged prices. Provisions suffered another slight decline.

May wheat, which closed yesterday at 76%c, opened to-day at 76%@76%c. There were only a few sales at the higher of the quotations, as the influence which prompt ed the advance lasted for only a few moments. This was the decline in English consols, which, taken in connection with the unsettled European political situation, was thought to indicate growing danger of war. But this was almost immediately lost sight of, Liverpool opening cables showing a 1/2d decline. This did not indicate any apprehension on the part of foreign speculators. The cables brought the information that a lot of California wheat shipped to India will be reshipped to English markets. The effect of this news was to cause a break to 75%c for a short time. At this point there was a rally on buying by shorts and a little bull news in the shape of crop damage reports which carried the price to furnished by Theo. Stein, abstracter of titles, 76% by 11 o'clock. Then the big slump of the day occurred, the market in half an hour taking a straight 1c drop. This was started by the report that seventy-five cargoes, about 12,000,000 bushels, were now affoat to Europe and will arrive next month. The presumption was that such a large amount of wheat would break the market there. It led to extensive liquidation, in which some of the strongest holders in the pit participated. After the scramble to unload was over the markets quieted down 1,500 | sued. This was only temporary, however. Liquidation started again during the last hour, and the market, already weakened by the large unloading, was easily forced down to 75%c. The market had recovered to 75%c at the close.

Corn suffered a little, in sympathy with the decline in wheat. May got down to 231/2c, which is the lowest it has so far sold this season, or, indeed, at any time since it has been traded in for May delivery. Local shorts did some covering at the concession in prices, sufficient to cause a rally to the opening figures. The exports figures (674, 000 bushels) were considered a favorable factor. May opened unchanged, at 23%c, sold between 231/2c and 231/4c, closing at Oats were quiet and featureless. At the

opening a steady feeling existed, but later in the day, when wheat declined, a similar action took place here. There was some scattered selling, and buying was fair and general. May opened a shade higher, at 17%c, sold to 17%c, dropped back to 17c and closed with that price bid. Trade in provisions was light, and prices suffered another small decline, in sympathy with the lower yard prices. There was some covering by shorts near the close, and part of the early loss was recovered, packers being the principal sellers. May pork closed about 21/2c lower, at \$7.671/2; May lard lower, at \$3.921/2. Estimated receipts for Friday-Wheat, 35
